REMARKS

The Office Action mailed February 12, 2007 has been received and reviewed. In order to expedite the prosecution, applicants cancelled claims 1-38, and added new claims 39-69. Upon entry of the foregoing amendments, the claims currently under consideration are claims 39-58. Supports for the new claims can be found throughout the specification, particularly from pages 2 through 23. Their entry is respectfully requested.

The original claims 1-28 were objected to for containing non-elected subject matter. Claims 39-58 as amended fully comply with the Examiner's restriction/election requirement. As such, withdrawn of the objection is respectfully requested.

The Examiner indicated in the Office Action that rejoinder of product claims and method of use claims commensurate in scope with the allowed product claims will occur following a finding that the product claims are allowable. For the convenience of the Examiner, applicants present claims 59-69 herein should the Examiner find the product claims 39-58 allowable.

Applicants believe that all claims are in condition for allowance. Applicant therefore respectfully requests that the Examiner reconsider all presently outstanding objections and that they be withdrawn. If the Examiner believes that personal communications will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at the number provided.

Prompt and favorable consideration of this application is respectfully requested.

Respectfully submitted,
